

# Partner with Sciens Software Technologies

Build · Scale · Win Together

# Who We Are

Sciens Software Technologies is a global technology firm specializing in delivering cutting-edge AI, Cloud, Mobility, and Data solutions. We are trusted by consulting firms, enterprises, and product companies worldwide to power their digital transformation initiatives.

Our commitment to engineering excellence and scalable delivery models makes us the ideal partner for organizations seeking to accelerate growth through strategic technology collaboration.

# Why Partner With Us?

## Global Delivery Capabilities

Access certified talent across multiple time zones with proven delivery excellence

## Flexible Engagement Models

Choose from multiple partnership approaches tailored to your business needs

## White-Label Delivery

Scale your offerings seamlessly under your brand with complete transparency

## Deep Technical Expertise

Specialized capabilities in AI, ML, Cloud, LLMs, Mobility, and Data Engineering

We believe in building long-term collaborative relationships founded on transparency, trust, and mutual success.

# Partnership Models Overview

01

---

## Project-Based Engagement

Complete project delivery with defined scope and timelines

02

---

## Resource Augmentation

Extend your team with dedicated technical resources

03

---

## Joint Delivery Partnership

Collaborate on large-scale enterprise transformation initiatives

04

---

## White-Label Delivery

Deliver solutions under your brand with our execution power

05

---

## Strategic Alliance

Long-term co-growth with shared market opportunities

# Project-Based Engagement & Resource Augmentation

## Project-Based Engagement

Ideal for well-defined projects requiring end-to-end delivery. We offer flexible pricing models including fixed-price and time & material arrangements.

- Complete lifecycle: Design → Development → QA → Deployment
- Predictable milestones and delivery timelines
- Full accountability for project outcomes

## Resource Augmentation

Scale your engineering capacity without the overhead of hiring. Access dedicated developers, QA engineers, designers, and architects on demand.

- Flexible monthly or hourly engagement models
- Rapid scalability to meet project demands
- Significantly lower operational costs

# Joint Delivery & White-Label Models

## Joint Delivery Partnership

Combine our strengths for enterprise digital transformation projects. Share roles, knowledge, and delivery responsibilities to tackle large-scale opportunities that require diverse expertise and capabilities.

## White-Label Delivery Model

You focus on client relationships and sales—we handle execution. Deliver 100% under your brand, expand your service offerings without hiring overhead, and increase profitability with reliable delivery.

# Strategic Alliance & Global Partnership

## Long-Term Co-Growth Collaboration

Strategic alliances are built for sustained mutual success. Together, we can develop joint go-to-market strategies, co-innovate on new solutions, share intellectual property, and access new markets.

This partnership model is designed for organizations seeking a true technology partner committed to shared vision and collaborative growth over the long term.

# Global Partner Benefits & Technology Capabilities

## Instant Scalability

Access certified global talent and scale rapidly to meet market demands without delays

## Fast Execution

Accelerated delivery timelines with lower cost structures and proven execution frameworks

## AI/ML & LLM Development

Cutting-edge artificial intelligence and large language model implementation expertise

## Cloud & DevOps

Comprehensive cloud migration, architecture, and DevOps automation capabilities

## Web & Mobile Development

Full-stack development across web, mobile, and enterprise application platforms

## Data Engineering

Advanced data engineering, analytics, and digital transformation solutions

Plus access to frameworks, accelerators, partner enablement support, and joint marketing opportunities.

# Your Partnership Journey

**Discovery Call**  
Understand your needs and explore fit

**Execution & Scale**  
Deliver value and grow together

## Model Selection

Choose the optimal engagement approach

## Agreement & Kickoff

Formalize partnership and initiate collaboration

## Partner Enablement

Access resources and align on execution

- ❑ **Why Now?** Global demand for tech talent is rising, AI and Cloud adoption is accelerating, and companies increasingly prefer partner-led delivery models. Offshore and white-label approaches are becoming standard practice.

Ideal partners include IT consulting firms, software development companies, digital agencies, product companies, and Cloud & AI technology providers.

# Let's Build the Future Together

At Sciens, we deliver with proven excellence, transparent collaboration, and a strong partner-first mindset. Our commitment to predictable outcomes makes us the trusted choice for organizations ready to scale.
